### When you evacuate • go to an emergency shelter

- Bring an emergency kit\*. • Cover your head with a bag or cushion. • Wear socks and shoes.
- Evacuate on foot. (Do not use a car). Walk away from block walls, signboards, glass windows.

## Tips for Crime Prevention & To Avoid Special Fraud

### While you stay at home

- Never open the door before identifying visitors. Avoid revealing that you live alone.
- Tips ▶ When you dry your laundry, hide it from the public eyes.
- ▶ Choose simple curtains for your safety.

### When you come home

- Make sure of being no one around you before opening the door.

## Examples of Fraudulent Schemes

Scammers may impersonate police officers, city officials, immigration officers or other figures of authority, contacting individuals by phone or even visiting their homes.

They may attempt to create a sense of urgency and fear by showing fake police identification or arrest warrants.

Under the pretext of investigating your account or preventing money laundering, they may ask you to hand over your cash card and bank book, or instruct you to transfer funds to a specific account via ATM or online banking.

## To avoid Special Fraud

- If you encounter a situation that seems suspicious or makes you uncomfortable, please hang up the phone immediately, do not allow anyone into your home, and contact your family, the university, or the police.
- Please remember that legitimate police officers and city officials will never ask for your cash card, bank book, or PIN, nor will they demand money transfers.
- We encourage you to be mindful of your online presence and avoid sharing personal information\* on SNS. \*Do not give the third-party your personal and shared information among your various groups such as names, phone numbers and e-mail addresses without consent.
- It's also helpful to discuss these safety tips with your family and stay informed about fraud prevention measures.

# Tips for Renting Apartment in Japan

## Read the rules for renting an apartment

### Tips for living in a rental apartment in Japan

#### House rules / points for daily attention

- Read over your lease contract, the resident manual and follow the instruction.
- You are not permitted to live with someone who isn't on the lease.
- Be careful not to be noisy late at night.
- Follow the rules for taking out the garbage.

(The way for putting out the garbage differs depending on the neighborhood in which you live, so ask the landlord (the management company) or the municipal office about the rules for taking out the garbage.)

- Please contact the landlord (the management company) and the department office immediately when you have any troubles in your apartment.

#### When you leave your apartment for a long time....

- Be sure to pay your rent in advance when you leave your apartment for a long time, such as an extended leave or travel for temporary visit.
- You should also inform the landlord (the management company) and the department office that you will be away for a long time.

#### When you move out....

- You should notify the landlord (the management company) that you wish to move out at least one month in advance.
- Please do not leave any of your possessions or garbage behind and ensure that it is clean.
- You should check in advance how to dispose home appliances and bulky garbage.

You should check with your landlord (management company) to see how much restoration (returning the apartment to its original condition) is required. If there are things left in the apartment or the apartment is damaged, you may have to pay. Thus, it is important to keep the apartment in good condition and clean it properly at the end.

#### ©Comprehensive Insurance for Students Lives Coupled with "Gakkensai"©

You would be required to enroll in an insurance, because the resident must respond to a large amount of compensation claims when an accident or fire occurs.
